

INDEX

- Absence of information, 14–15, 46–48
- Abstraction, 16
- Adaptation, 87–88
- Aspect-oriented communication, 52–54
- Aspect-seeing, 53–54
- Asplund's theory of motivation, 5–6
- Boundaries, 18–20
- Bureaucratic systems, 5
- Category errors, 34
- Changes, 15–16
 - development, 16–17
 - distinctions, 23–25
 - identity, 23–25
 - perspectives, 17–18
- Cognitively open systems, 49–50
- Collective blindness, 83
- Communication, 88–90
 - Asplund's theory of motivation, 5–6
 - circular process, 103–104
 - differences, 47–48
 - feedback processes, 108–109
 - human relationships, 2
 - information, 1
 - interactionist theory, 2
 - knowledge, 1
 - micro-behaviours, 5–6
 - minimal rules, 6
 - model description, 3–4
 - obstacles, 107
 - punctuation, 6–7
 - self-understanding, 105–110
 - significant symbols, 3–4
 - social theory. *See* Social theory, 2–3
 - strategies, 90–93
 - system, 43–46
 - systemic thinking. *See* Systemic thinking
- Communicative co-creation, 48–50
- Complex social systems, 68
- Connection processes, 50–52
- Context, 20
 - markers, 34–36
- Contextual competence, 29–30
- Contextual understanding
 - complex social systems, 68
 - critical thresholds, 69–70
 - emergence, 73–75
 - external world, 71–73
 - message, 67–68
 - organizational complexity, 68
 - part-whole relationship, 67–68
 - patterns, 69–71, 74–75
 - social cohesion, 73
 - social laws, 74–75
 - social mechanism, 75–79
 - systemic thinking, 72–73
- Critical thresholds, 69–70
- Cyclical variation, 6
- Deep relationships, 36
- Depth of experience, 11
- Distinctions, 23–25, 85–86

- Emergence, 73–75
- External world, 23, 71–73
- Feedback, 29–30, 108–109
- Flexibility
 - adaptation, 87–88
 - collective blindness, 83
 - communication, 88–90
 - description, 86–88
 - distinction process, 85–86
 - perceived rejection, 89–91
 - pragmatic communication strategies, 93
 - principles, 85
 - reference system, 88–90
 - relationships, 82, 89–90
 - rigidity, 83–86
 - self-reference, 81–83
 - social change mechanism, 82
 - strategies, 90–93
- Fragmented information, 52–54
- Framing, 14–15
- Fundamental experiences, 38–41
 - absence of information, 14–15
 - abstraction, 16
 - boundaries, 18–20
 - case letter, 10
 - changes, 15–17
 - communication, 10
 - consequences, 10
 - context, 20
 - depth of experience, 11
 - development, 16–17
 - framing, 14–15
 - identity, 11–12
 - meta-context, 20
 - relationships, 11–12
 - social relationships, 13
 - social systems, 11, 13
 - systemic thinking, 98
 - system – internal-world relationships, 13–14
 - trust, 20–22
- Genesis, 39
- Human relationships, 2
- Ideas
 - chance, 58–59
 - circle, 58
 - expectations, 60
 - hidden knowledge, 58–59
 - information, 59–60
 - innovation, 58–59
 - knowledge, 57–58
 - meta-communication, 62–63
 - tacit ideas, 61–63
 - values, 60
- Identity, 11–12
 - case letter, 24–25
 - changes, 23–25
 - constant, 25–26
 - contextual competence, 29–30
 - differences, 23–25, 29
 - differentiation, 29–30
 - distinctions, 23–25
 - external world, 23
 - feedback, 29–30
 - irreversible, 26–28
 - recursivity, 29
 - reversible, 26–28
 - system-internal differentiation, 28–29
 - threshold value, 29–30
 - time-lag, 29–30
 - tools, 27–28
- Information, 1, 59–60
- Innovation, 58–59
- Interactionist theory, 2
- Irreversible, 26–28
- Knowledge, 1, 57–58
 - communication, 1
 - creation, 2
 - hidden knowledge, 58–59
 - ideas, 57–58
- Message, 67–68
- Meta-communication, 62–63
- Meta-context, 20

- Micro-behaviours, 5–6
- Minimal rules, 6
- Model description, 3–4
- Model power, 4–5
- Morality, 37–41
 - fundamental experiences, 38–41
 - segmentation, 40
- Nervous tension, 109–110
- Normatively closed systems, 51–52
- Organizational complexity, 68
- Paradoxes, 34
- Part-whole relationship, 67–68
- Patterns, 69–71, 74–75
- Perceived rejection, 89–91
- Pragmatic communication
 - strategies, 93
- Punctuation, 6–7
- Recursivity, 29
- Redundancy, 4
- Reference system, 88–90
- Relational norms, 36–37
- Relationships
 - absence of information, 46–48
 - aspect-oriented communication, 52–54
 - aspect-seeing, 53–54
 - case letter, 36
 - category errors, 34
 - changes, 47
 - cognitively open systems, 49–50
 - communication differences, 47–48
 - communication system, 43–46
 - communicative co-creation, 48–50
 - connection processes, 50–52
 - context markers, 34–36
 - deep relationships, 36
 - dynamics, 39
 - flexibility, 89–90
 - fragmented information, 52–54
 - fundamental experiences, 38–41
 - genesis, 39
 - goals, 40–41
 - information, 34
 - morality, 37–41
 - normatively closed systems, 51–52
 - paradoxes, 34
 - relational norms, 36–37
 - right actions, 41–43
 - significant symbols, 33–34
 - social relationships, 44–46
 - stability, 47
 - systemic connections, 43–44
 - threshold value, 38
 - types of, 37
 - wrong actions, 41–43
- Reversible, 26–28
- Rigidity, 83–86
- Self-organization, 6
- Self-reference, 81–83
- Self-understanding, 105–110
- Significant symbols, 3–4, 33–34
- Social changes, 102
 - mechanism, 82
- Social cohesion, 73
- Social laws, 74–75
- Social mechanism, 75–79
- Social relationships, 13, 44–46
- Social systems, 11, 13
- Social theory, 2–3
 - create element, 111
 - detect element, 111
 - fundamental experience, 116
 - interpretation, 111–114
 - language, 115–116
 - messages, 113
 - micro-social theory, 112
 - select element, 111
 - simple gesture, 114
- Spontaneous ability, 4
- Stability, 47
- Symbol, 3–4
- Symbolic interactionism, 97
- System–external world distinction
 - case letter, 24–25

- changes, 23–25
- constant, 25–26
- contextual competence, 29–30
- differences, 23–25, 29
- differentiation, 29–30
- distinctions, 23–25
- external world, 23
- feedback, 29–30
- irreversible, 26–28
- recursivity, 29
- reversible, 26–28
- system-internal differentiation, 28–29
- threshold value, 29–30
- time-lag, 29–30
- tools, 27–28
- Systemic connections, 43–44
- Systemic thinking, 72–73
 - assumptions, 101
 - circular process, 103–104
 - communication, 98–103
 - feedback processes, 108–109
 - fundamental experience, 98
 - nervous tension, 109–110
 - selection processes, 105
 - self-understanding, 105–110
 - social changes, 102
 - symbolic interactionism, 97
 - theoretical research, 99
- System-internal differentiation, 28–29
- Tacit ideas, 61–63
- Threshold value, 29–30, 38
- Time-lag, 29–30
- Trust, 20–22
- Values, 60
- Wrong actions, 41–43
