

Index

- Application of platforming
 - methodology, 117
 - functions, platform services, and operating system, 128–132
 - Innovation Research Platform, 119–124, 132–134
 - peers, exchanges, and value propositions, 124–128
 - self-organizing approach, 118
- Assembly-line model, 29
- Assetless platforms, 22

- Behavioral economy, 26–27
- Broker model, 33
- Business models, 53, 55
 - elements in, 58, 59
 - meta* platform, 60–71
 - stakeholder capitalism, 56
 - the theory of the business, 57
 - types of business models, 59
 - types of platforms, 71–82

- Co-creation, 36, 42–43
- Communities, 78
 - convening, 114–115
 - platforms, 74
- Conventional business model, 28–29

- Digital strategy for platforms, 27
- Digital technology, 5, 16, 20, 75

- Ecosystem, 1
 - mapping, 98–100
- Exchange Matrix, 99–100
- Exchanges, 124–128

- Foundation for platforms, 25
 - behavioral economy, 26–27
 - business enterprise, 32–33
 - conventional business model, 28–29
 - nascent critique, 46–52
 - pipeline model, 29
 - sense-making platform, 34–46
- Freemium model, 14*n*5

- Generating system, 1
- Governance in platforms, 104–110
- Guiding principles for platforming, 91–96

- Industrial Revolution, 1
- Innovation Research Platform, 119–124, 132–134
- Internet of Things (IoT), 80

- Learning, 18, 104–110
 - platforms, 74

- Marketplace, 78
 - platforms, 74
- Matching function, 90
- Matchmaking (*see* Matching function)
- Meta business models, 1, 10–11
- Meta* model, 6–7
- Meta* platform model, 60, 136
 - (*see also* Business models)
 - Alexander’s generating system, 62–63
 - designing platforms, 64
 - ecosystems of pipelines, 68–69
 - importance of, 61

- Minimum Specifications, 67, 69
 - platform model, 63
 - value in platforms, 70
- Minimum Specifications, 67
- Nascent critique, 46–52
- Network orchestrators, 21, 34
- Non(-for-)profit
 - organizations, 54
 - platforms, 76
- Open innovation, 78
- Operations, platforming design, 104–110
- Peers, 87
 - groups, 124–128
- Pipeline
 - business, 2
 - platforms *vs.*, 2
- Pipeline-Platform Nexus Typology, 79
- Platformed delivery, 79
- Platformed governance, 80–81
- Platformed internal operations, 80
- Platformed supply, 79
- Platformed value creation, 81–82
- Platforming Canvas, 102
- Platforming Ecosystem Map, 99
- Platforming methodology, 85
 - approaches to platform design, 88–91
 - aspects, 87
 - guiding principles for platforming, 91–96
- Pipeline-Platform Nexus, 86
 - platform value proposition, 88
- Platforming Navigator, 110–115
 - stages of platforming design, 96–110
- Platforming Navigator, 110, 111
 - capability and integration, 113–114
 - convening & innovation, 114–115
