

Index

- Action teams, 429–442
 - See also* workgroups,
 - future research, 437–439
 - organizational climate, 431
 - organizational culture, 431
 - staying on task, 433–435
 - team dynamics, 432–433
 - team training, 431–432
 - troubleshooting, 436–437
- Bona fide group perspective, 9–11, 18, 26, 34–35, 50, 66, 77, 79, 81, 85
- Bounded rationality perspective, 547–555
 - analysis of environment, 551–552
 - methods, 545–558
 - representative design, 552–554
- Children and teens, research on, 565–566
- Communication, central to group processes, 15
- Communicating knowledge, 303–321
- Communication doctoral programs, 560–562
- Conflict, 245–259
 - communicating across differences, 264–265
 - democratic social relationships, 264
 - during group development, 246–247
 - instrumental view, 247–248
 - facilitation, 266–267
 - future research, 253–254, 268–269
 - political view, 249
 - resolution, 249–250
 - use of third party, 252–253
 - of virtual conflict, 251–252
- Contextual study of group
 - communication, 10–12, 29, 34–35
 - implications of context, 41–42
 - internal group context, 36–38
 - external group culture, 38–39
 - group types, 40
 - theoretical framework as context, 40–41
- Digital group communication, 12
- Decision making, 52, 535, 537, 541, 546, 548–549, 551, 553–559, 566
- Decision making techniques and technologies, 209–228
 - development of, 210–212
 - future directions, 220–223
 - history of, 212–214
 - model driving tradition, 215–218
 - task-oriented tradition, 213–214
 - theories, 218–220
- Deliberation, 261–274
 - communicating across differences, 264–265
 - decision making, 263–264
 - democratic social relationships, 264
 - facilitation processes, 266–267
 - future research, 268–269
 - history, 263–267
 - problem analysis, 263–264
 - theories, 263–267
- Digital technology, 566–567
- Discourse tracing, 85
- Diversity, 165, 250, 253, 266, 316, 342, 345, 391–405, 437–439, 456, 465, 567
 - critique of literature, 396–399
 - future research, 399–401

- history, 392–394
 - theoretical approaches, 394–396
- Emergency team communication, 493–503
 - bona fide groups, 496–497
 - debriefing, 500–501
 - defining emergency teams, 494–495
 - historical significance, 495–496
 - sensemaking, 498–499
 - team stress and communication, 497–498
- Ethnography, 19, 79–80, 312, 522
- Foundations, group communication research, 7–24
- Future research areas, 12–15, 53, 99–103, 165, 220–223, 240–241, 250, 253–254, 266, 268–269, 315–316, 331–333, 342, 345, 347–350, 366–367, 383–385, 391–405, 418–420, 437–439, 453, 456, 465, 468–469, 484–485, 527–528, 567, 565–567
- Group communication theory, 339–355
- Group composition, 341–343
 - approaches, 341–343
 - group communication as a cause, 345
 - group communication as a process, 343
 - group composition as a consequence, 2, 15–16
- Group communication, field of study, 47–53, 347–348
 - future directions, 347–348
 - digital environment, 348
 - technology as a group member, 348–349
 - temporality of group composition, 349
- communication-centered approach, 349–350
 - diversity in research methodology, 345–346
 - team member fluidity, 137–154
- Group communication patterns, 560–562
- Group communication scholars, 47–54
- Group communication theory, 346–347
 - role emergence, 340–341
 - history, 25
- Group composition, 340–341
 - history, 341–347
 - a communicative perspective, 341–342
 - as a cause, 343
 - as a consequence, 345
 - as a process, 343–344
 - cognitive factors, 364–365
 - comparing relational events with computational models, 347–350
 - future research, 362–363
 - relational event framework, 344–345
 - relational factors, 346–347
 - role emergence and development, 345–356
 - team member fluidity, 37–38
- Group culture, 261–274
- Group, definition, 262–263
 - history of, 57
 - minimum level of analysis, 263–264
 - problem analysis, decision making, 263–267
 - theories of, 339–355
- Group deliberation, 263–264
 - decision making, 264
 - democratic social relationship, 262–263
 - history, 263–264
 - problem analysis, 263–267
 - theories of, 27, 289–290, 292, 294, 430, 431

- Group goal, 26, 349, 361, 519–521, 523–528
- Group, identity, 26, 28
- Group membership, see group composition
- Group networks, 49, 91–110, 357–371
 - defining, 358–359
 - interaction networks, 359–360
 - relational dynamics, 361–362
- temporal dynamics, 360–361
 - theory, 360–362
 - neuroimaging, 165–166
 - normative speakers, 165
- Group structure, 162–163
- Group or team label, 28–29
- Groupthink, 233–235
- Groups and technology, study of, 373–390
 - declining trends, 382–383
 - future research, 383–385
 - keywords, 374–375
 - machines as teammates, 385
 - research on technology and groups, 374–383
 - rising trends, 383
 - technology trends, 380–381
- Healthcare teams, 475–492, 566
- Hidden groups, 519–530
 - background, 520–522
 - future research, 527–528
 - group-level invisibility, 523–524
 - invisibility, 524–527
 - methodology, 522
 - multilevel framework, 522–523
- Hidden profile paradigm, 14, 304–308, 314
- Identity, group communication
 - scholars, 560–562
- Information sharing, 12–14, 304–308
 - comparison of research streams, 314–315
 - future research, 315–316
 - transactive memory, 308–311
- performative view of expertise, 311–314
- Interaction analysis, 18
- Interdependence among members, 26–27, 34–35
- Interdisciplinary Network for Group Research (INGRoup), 564–565
- Interdisciplinary, role in, 16–17
- Interdisciplinary scholarship, 564–567
- International scholarship, 564–565
- Juries, 443–460
 - conflict, 447–448
 - communicative events, 455–456
 - deliberative communication, 445–446
 - future research, 449–450
 - gaining access, 454
 - misconduct, 448–449
 - new directions, 453
 - pandemic juries, 454–455
 - pre-deliberation, 445
 - theoretical lenses, 450–453
- Knowledge, communicating, 303–304
 - information sharing, hidden profile, 304–308
 - transactive memory, 308–311
 - performative view, 311–314
 - comparative findings, 314–315
 - future research, 315–316
