INVESTOR IN PEOPLE

To Daniel

ACKNOWLEDGEMENTS

The book originates from the authors' paper presented at the International Environmental Communication Association (IECA) Annual Conference in Leicester, 2017. The authors would like to thank Jen McCall of Emerald Publishing for her enthusiasm and support for this book project. Thanks also go to Rachel Ward of Emerald Publishing for her assistance. The authors want to thank the anonymous reviewer for their comments on the book proposal and thank Brian Keegan of University of Colorado Boulder for his suggestions on how to present network graphs in greyscale in Gephi. They also want to thank Sue Sparks for copy editing the book. The authors are indebted to open-source applications including Twitter4J, Elasticsearch, Kibana, Gephi and Inskape and their contributors.

CONTENTS

<i>List of Figures</i>	xiii
<i>List of Tables</i>	xv
1. Introduction	1
PART 1	
2. The Environment and Politics	13
2.1. The Global Rise of Environmental Awareness, Movements and Politics	13
2.2. Environmental Awareness and the Politicisation of the Environment in the UK	17
2.3. What Does the Environment Mean for the UK's EU Membership?	23
3. Twitter, the Media Ecology and Environmental Communication	25
3.1. Twitter Communication Studies – The Current State of Play	27
3.2. Studies of Environmental Communication on Twitter	29
PART 2	
4. Environmental Discourses on Twitter	35
4.1. Dichotomised Claims in the Pre-referendum Discourses: Remain for Green versus Leave for Green	37

4.2.	Dominant claims of Remain for Green on the Referendum Day	49
4.3.	A Radical Shift in the Environmental Discourses after the Referendum Day	54
4.4.	Weak Trends of the Discussions on Six Environmental Topics	63
4.5.	Conclusion	64
5.	Elite Domination in the Asymmetrical Twitter Space	69
5.1.	Asymmetric Structure of Twitter Communication	70
5.2.	Decentralisation and Anarchy on Twitter	74
5.3.	Attention-driven Prominence of Elites	81
6.	Sparse ‘Communities’ and Their Green Bridges in Twitter Networks	85
6.1.	Previous Studies – SNA of Social Media	87
6.2.	The Formation of Sparse ‘Communities’	90
6.2.1.	Sparse ‘Communities’	91
6.2.2.	Loosely Connected or Isolated ‘Communities’	97
6.2.3.	Lack of Interactions and One-way Information Flow	99
6.3.	The Prominence of Two Major Green Camps	100
6.4.	Isolated State of News Media and Journalists	103
6.5.	Exclusion of Established Political Parties and Isolation of Non-green Politicians	107
6.6.	Conclusion	108
7.	Influential Social Actors: Competing for Discourses on Twitter	111
7.1.	Political Parties and Politicians	113
7.2.	The ENGOs Camp	119
7.3.	News Media and Journalists	123
7.4.	Seven Other Categories of Influential Social Actors	125
7.5.	Conclusion	127

PART 3

8.	Twitter and Environmental Politics	131
8.1.	The Influence of Social Context	132
8.2.	The Role of the ‘Technological Affordances’ of Twitter	135
8.3.	Old and New Players on Twitter	139
8.4.	Conclusion: The Intertwining of Social Media Communication and Offline Reality	140
9.	Social Media Research: Towards an Inductive Approach	145
9.1.	The Methodological Challenges	145
9.2.	The Inductive Approach in Action – Let the Data Tell Us the Story	151
9.2.1.	Research Process	151
9.2.2.	The Use of Mixed-methods and Computational Applications to Explore the Data	155
9.2.3.	The Role of the Literature	157
9.3.	The Advantages and Limitations of Our Inductive Approach	158
	<i>Bibliography</i>	161
	<i>Index</i>	189

LIST OF FIGURES

Chapter 1

Figure 1	Daily Trend of Environmental Tweets One Month Before and After the Referendum (xAxis: Dates; yAxis: Number of Tweets)..	6
----------	---	---

Chapter 4

Figure 2	Types of Themes in the Randomly Selected Sample Before, During and After 23 June 2016.	38
----------	--	----

Chapter 5

Figure 3	Types of Users Whose Tweets Were Retweeted (Top 0.4%), Mentioned (Top 2%) and Favoured (Top 0.2%) Most.	73
Figure 4	Trends of Tweets by Top 10 ENGOs, Politicians, Political Parties and News Media.	76
Figure 5	The Core Egonets of 16 Accounts Connected with Political Parties before (and on) the Referendum Day.	80

Chapter 6

Figure 6	The Full (Above) and Core (Below) Egonets of Top 10 Politicians before (and on) the Referendum Day.	95
