It has been brought to our attention that Professor Mohamed Sahnoudi at ISAE was not named as an author of “A type of collective detection scheme with improved pigeon-inspired optimization” which was published in the *International Journal of Intelligent Computing and Cybernetics*, Volume 9, Issue 1, pp. 105-123 (2016). This occurred through an author error. The authors sincerely apologise for this. The additional author attribution for this paper has now been added to the electronic version of the article.
